

Custom-Color Recycled Polyamide from Discarded Fishing Net

✓ Driving connection across the entire sustainable value chain

UBE works with fishing communities within a 5-kilometer radius of UBE's factory in Rayong province to collect end-of-life discarded fishing net. These nets are then sorted and sent for appropriate management to prevent waste accumulation in the sea and reduce environmental impact.

✓ Creating new values through innovative technology

UBE leveraged its extensive know-how, knowledge, and experience in nylon product development. This expertise allowed them to quickly enhance the quality and color design of recycled polyamide, ensuring it met specific requirements.

✓ Minimize environmental impact

CFP calculated based on internal UBE method following ISO 14067 guideline, However the number is not certified and ; thus, not guaranteed.

✓ Exploring beyond the existing ART & Fashion application

Through a creative collaboration with PIPATCHARA, a leading Thai fashion brand for community known for its commitment to sustainable design, r-PA is being introduced into the fashion industry—marking an important step in diversifying end use applications.
